

Electronic Village and Technology Showcase Re-Imagining CALL

Special Events

The Electronic Village (EV) and the Technology Showcase, located in the Boston Convention Center, are hosted by the Computer-Assisted Language Learning (CALL) Interest Section. The EV is a great place to explore computer-based and other technology resources for language teaching and learning in the face-to-face classroom and online.

New this year: The Technology Showcase comes alive with three Intersection presentations, the CALL-IS Academic session, and various CALL sponsored sessions that focus on important issues, information, and applications for CALL presentations. The CALL-IS Open Business Meeting will also take place in this room and we welcome your attendance and participation.

Highlights in the EV and the Technology Showcase include the latest in CALL technology and teaching, such as multimedia learning, access to Internet-based resources, presentations on hardware devices, and demonstrations by teachers, software and Web designers, curriculum specialists, CALL authors, and other CALL practitioners.

In addition to our Special Events, you are welcome to explore the EV during "Ask Us: Free Advice for CALL" hours. Volunteers and CALL Steering Committee members are available to answer questions, demo software, and share their experiences incorporating CALL into EFL/ESL curriculum.

Make sure to schedule a visit to the EV, included in the cost of registration. Space is limited for Special Events, so stop by the EV early to sign up (no cost to attend).

EV Coordinators: **Sandy Wagner**, Assistant Professor, Defense Language Institute, Monterey, Ca, USA, **Andy Bowman**, Learning Laboratory Coordinator, Intensive English Language Center, Wichita State University, Wichita, Kansas, USA

Special Event Descriptions

Webmasters' Workshop

If you are the web manager for a TESOL Interest Section or Affiliate, this workshop

is for you. Explore software for web development, discuss how to reach your audience, and network with other web managers.

Coordinator: **John P. Madden**, Assistant Professor of TESL, St. Cloud State University, St. Cloud, Minnesota, USA

Ask Us: Free Advice for CALL

This event is open to all attendees who wish to explore and learn more about using computers or technology, try out software donated by vendors or get assistance using software programs. Our CALL expert volunteers are happy to answer questions and share expertise incorporating CALL into ESL curriculum. This event offers multiple presentation times
Coordinators: **Tom Robb**, Professor, Department of English, Faculty of Foreign Languages, Kyoto Sangyo University; **Susan Gaer**, Professor of ESL, Santa Ana College School of Continuing Education, Santa Ana, Ca; **Deborah Healey**, Faculty, American English Institute, University of Oregon, Eugene, Oregon, USA

EV Fair

Explore new ways to use CALL in your classroom. Discover how your colleagues use the Web, e-mail, online conferencing, and computer-based resources. Ask questions and get hands-on experience. This event offers multiple presentation times focusing on presentations in the specific Interest Sections.
Coordinator: **Roger Drury**, Custom Course Coordinator, Georgia Institute of Technology, Atlanta, Georgia, USA

EV Fair Classics

EV Fair Classics are CALL favorites from practicing professionals who have been invited to present again. Explore new ways to use CALL in your classroom and discover how your colleagues use the Web, email, online conferencing, and computer-based resources. Ask questions and get hands-on experience. Several presentations will be Web cast from the EV Fair Classics.
Coordinators: **Justin Shewell**, Ph.D student, Teaching Assistant, Department of Educational Technology, Arizona State University, Tempe, Arizona, USA; **Anna Marie Robinson**, Director, English Language Programme, University of New Brunswick, Fredericton, New Brunswick, Canada, **Chris Sauer**, lecturer, University of Colorado, Colorado Springs, Colorado, USA

EV Hardware Fair

Do you have equipment that you don't know how to use in the classroom? Then the EV Hardware Fair is the place to go. Presenters are stationed around the EV demonstrating the use of handheld devices, cameras, portable technologies, interactive whiteboards (IWBs), clickers, ELMO's, MP3 players, cell phones, and other hardware. Come and learn how to use these tools for language instruction and learning.

Coordinators: **Susan Gaer**, Professor of ESL, Santa Ana College School of Continuing Education, Santa, Ana, California, USA, **Christine Bauer-Ramazani**, Chair CALL-IS, Grant Program Coordinator, Saint Michael's College, Colchester, Vermont, USA

CALL for Newcomers

Learn CALL basics from experts and enhance your teaching with computer resources at this hands-on workshop.
Coordinators: **John Madden**, Assistant Professor TESL, Department of English, St. Cloud State University, St. Cloud, Minnesota, USA; **Deborah Healey**, Faculty, American English Institute, University of Oregon, Eugene, Oregon, USA

EV Mini Workshop

Get hands-on practice with small groups and an instructor who specializes in using a particular application or Internet-based resource.

Coordinators: **Laurie Moody**, Professor, Passaic County Community College, Paterson, New Jersey, USA; **Gaby Rinkerman**, Associate Professor ESL, Passaic County Community College, Paterson, New Jersey, USA

Developers' Showcase

Discover the latest ideas in applied technology for ESOL educational settings, including stand-alone software and Internet-based applications. Attend this presentation to see unique and original creations designed by teachers and researchers.

Coordinator: **Andrew Bowman**, Learning Laboratory Coordinator, Intensive English Language Center, Wichita State University, Wichita, Kansas, USA
